

26th Annual Developmental and Stem Cell Biology Symposium

Theme: Current Advances in Evolutionary Developmental Biology

Friday, June 1, 2018

9:30 am – 5:00 pm

Location:

Byers Auditorium
Genentech Hall,
UCSF Mission Bay

Register for free at:

<https://www.surveymonkey.com/r/DSCBSymposium>

All members of the UCSF community are welcome! **Come join to learn about the exciting world of Evo-Devo!**

9:30 – 10:00	Free breakfast
10:00 – 10:05	Opening Remarks
10:05 – 10:55	“Establishing Cerebral Organoids as a Platform for Studying Molecular Features of Human-Specific Evolution” <i>Alex Pollen, UCSF</i>
11:00 – 11:50	“The developmental basis of evolutionary adaptations in bats” <i>Karen Sears, UCLA</i>
12:00 – 1:00	Free lunch (Genentech Hall – 114)
1:05 – 1:55	“In Vivo Studies of Human Genome Function” <i>Len Pennacchio, Lawrence Berkeley National Lab</i>
2:00 – 2:50	“Deep deuterostome regulatory origins of the vertebrate brain” <i>Christopher Lowe, Stanford</i>
2:55 – 3:05	Coffee break
3:10 – 4:00	“To Be Determined” <i>Nipam Patel, UC Berkeley</i>
4:05 – 4:55	“Bacterial regulation of mating and development in the closest living relatives of animals” <i>Nicole King, UC Berkeley</i>

Developmental &
Stem Cell Biology
Graduate Program

*Hosted by the DSCB
graduate student community*
